

RouterBOARD 750

An entirely new class of product in the RouterBOARD lineup, the RB750 is a small five port ethernet router in a nice plastic case for a very special price, and yet - with all the power of RouterOS.

Even more - it's probably the most affordable MPLS capable router on the market. With it's compact design and clean looks, it will fit perfectly into any SOHO environment.

CPU	AR7240 400MHz CPU
Memory	32MB DDR SDRAM onboard memory
Boot loader	RouterBOOT
Data storage	64MB onboard NAND memory chip
Ethernet	Five 10/100 ethernet ports (with switch chip)
miniPCI	none
Extras	Reset switch, Beeper
